### **City Hall layout to be revealed**

**CHANDLER** — Architects will unveil the layout of the new City Hall complex at a special Planning and Zoning Commission briefing Wednesday — and the design includes a municipal museum that was recently squeezed out of a private developer's project across the street.

Assistant City Manager Rich Dlugas said residents and community groups are invited to weigh in at the 3 p.m. session by SmithGroup Architects.

The layout for buildings on 4.2 acres at Arizona Avenue and Chicago Street is backed from the Chandler Chamber of Commerce, whose members received e-mails this week asking them to show up in support of keeping the museum downtown.
